VAPOR BATHS. The inhabitants of indianapolis and vicinity are also informed that Dr. Pendery has opened a spacious and commodious Bath Room, office No. 243; East Washington street, to enable the sick and afflicted to test the efficacy of the Medicated Vapor Baths.

It is not deemed necessary to dilate or in any way en-

large on the remarkable and ascunding cures performed through the agency of these baths; the wonderful effect of Fumigation, of redncing medical agents to a vapor and bringing the heated vapor to the surface of the body. has a tracted the attention and challenged the admiration of the most distinguished medical men of the age. The Vapor Baths have been introduced by the Court Surgeons, with every royal family in Europe, and have very generally received the plaudits of all classes of patients in humble as well as in the higher walks of life. The Vapor Baths are precisely adapted to every class of diseases. In Chronic Skin Diseases, Rheumatism, Dyspepsis. Nervous Headache, Palsy, Lung Disease, or any affection to which the human system is liable, the Baths never fail to afford relief. Sulphur Vapor, for instance, is conceded by the most prejudiced physician, or the most stupidly ig\_orant pre-tender, to be the very best remedy ever used for Chron c Rheumatism, all classes and kinds of Skin Diseases and the numerous forms of Catarrh. loidine Vaper, with Extract of Wild Cherry, for al forms of Lung or Bronchial Diseases, so with the thousand vegetable extracts, when reduced to a vapor and brought in contact with the skin, or any diseased surface

produces the most flattering and satisfactory results, which no other form of medication can possibly attain A trial of these Baths never fells to convince the most keptical of the wenderful curarise power of extracts re fuced to a vapor and applied exactly to the spot of diserse. Vapors penetrate with great rapidity, and soothe irritation and relieve pain, which no medicine takes in substance can reach. The sick and infirm from disease, no matter how long

tanding, or what the disease may be, are cordially invited to give our Batha a trial These Baths accelerate the effects of alterative medi rines, drawing disease out of the system, changing the state of the body in constitutional diseases, and increasing the action of the absorbent vessels. The specific effects are:
To equalise the circulation of the blood.
To promote prespiration.

To remove the effects of mercury from the system To promote absorption of dreps cal effusions.

To refleve difficulty of breathing and to cure Asthmatic and other diseases of the Chest and Lungs. To strengthen the stomach and impart a digestive organs, and to cure dyspepsia and its consequent disorders. To promote the healing of Scrofulous and Chronic Ul-cers, and remove Gouty and Rheumstie Pains and Swell-

ings from the Joints, and to cure Lumbago, Sciatica

For Quinsey-tie Baths never fail to relieve it. For Croup-it may be regarded as a specific. For Whooping Cough—it gives relief.

For Measles—a certain specific.

To cure discharges of Blood from the Lungs and other internal organs of the body—it may be relied on.

For Cholera—it is an effectual remedy, as the prespiraion is almost instantaneous To cure Acute and Chronie Inflammation, the Bath, ju diciously medicated, is a certain specific The Baths have never failed to cure Cholera Morbus. The use of the Baths. (with the aid of anti-Billious Cor
